Trophies and prize for 1st and 2nd place team contests

Trophies for kids under 12 category

Bagels, Donuts, Coffee, Water, OJ

Sponsored By

Mike Kirchner

Real Estate One

Rules:

- 2- Person teams must **pre-register**, emailing Lynne Leipold at lmleipold@comcast.net by August 18th with entrant's names. More than one team can fish from the same boat. Each TEAM must have a LSA resident.
- A Talley sheet will be provided on LSA website or by emailing either host. If you do not pre-register, you are still welcome☺
- Tournament (fishing) begins promptly at 7:00 a.m. There is no signaled start or live well check.
- Turn in Talley sheets on Higgins Island at 11:00 a.m. Boats arriving later **will not** be eligible for prizes.
- No trolling will be allowed. Live bait is permitted.
- All Michigan fishing regulations apply. Please be courteous to other anglers.
- This is an honor-based fishing tournament. Measure your fish with a ruler rounding down to the nearest inch, and then RELEASE.
- **Multi Species** - Each team fishes for the biggest fish of each of the 7 identified species; bass, pike, walleye, perch, crappie, rock bass, and bluegill/sunfish. Always round down to the nearest whole number. For example: your team catches 10 bass collectively, with the biggest at 16-1/4". This gives the team one bass at 16". Also, you collectively catch an 18" pike and 2 walleye, the biggest 20", 20 bluegill, with the biggest at 7-3/4", one 9-1/4" perch and four crappies, with the biggest at 11-1/2" and no rock bass. You will add the total full inch lengths and come in with $16 + 18 + 20 + 7 + 9 + 11 + 0 = 81$ total inches. If any species is not caught, then zero points are taken. A fish does not have to be legal size to count.
- **Bass** - Each 2-person team can combine the length of their 5 biggest bass. A quick example would be: a team catches 7 bass collectively. They have an 18-1/4", a 15-3/4", a 14", a 13" and a 12-1/2" as their biggest 5. The team would report $18 + 15 + 14 + 13 + 12$ for 72 points in the separate 5 biggest Bass category. When possible photograph your catch so they can be downloaded to the LSA website.

Photograph your catch so we can share them on the LSA website.

In the event of extremely bad weather, we will post changes using the LSA e-mail system.
